

## **BIDWELL CHIROPRACTIC GETS KDT CERTIFIED**

### **PRESS RELEASE: DR. SYLVIA BIDWELL AND DR. BOBBI DORIO ARE NOW KDT DECOMPRESSION CERTIFIED PRACTITIONERS**

Dr. Sylvia Bidwell and Dr. Bobbie Dorio at Bidwell Chiropractic Center are pleased to announce that they are now certified in the Kennedy Decompression Technique. Since there is a high failure rate in disc surgical procedures, the Doctors at Bidwell Chiropractic Center have decided to take extra effort and seek out the most advanced disc training course to help prevent their patients from surgery. The Kennedy Decompression Technique is a very credible, high class decompression certification course which involves 12 hours of online training and 12 hours of hands on decompression training which is approved through the Logan College of Chiropractic. At this certification course, the Doctors learned how to properly classify patients into certain categories based upon performing many provocative examinations. Based upon the results found from these examinations, these now certified decompression practitioners can now effectively treat disc symptom patients with the highest level of knowledge and expertise. Bidwell Chiropractic has the only KDT certified practitioners in the Moorestown and surrounding areas. So, if you find yourself suffering from a disc herniation, bulge, degenerative disc disease, sciatic nerve pain, or any type of low back or neck pain the Bidwell Chiropractic Center would like to have a consultation with you today! If you are looking for an experienced, knowledgeable, and credible decompression practitioner please contact Bidwell Chiropractic Center today at 856-273-1551. Dr. Bidwell and her staff are located at the Strawbridge Professional Center in suite 100 in Moorestown, NJ.
